DATE: 9th August, 2019

PCN #: 2432

PCN Title: Replacement Wafer FAB Source for RDL Process

Dear Customer:

This is an advance announcement of change(s) to products that are currently being offered by Diodes Incorporated.

We request that you acknowledge receipt of this notification. Please refer to the implementation date of this change as it is stated in the attached PCN form. Please contact your local Diodes sales representative to acknowledge receipt of this Advance PCN.

Previously agreed upon customer specific change process requirements or device specific requirements will be addressed separately.

For questions or clarification regarding this PCN, please contact your local Diodes sales representative.

Sincerely,

Diodes Incorporated PCN Team

**TITLE**

Replacement Wafer FAB Source for RDL Process

**DESCRIPTION OF CHANGE**

This PCN is being issued to notify customers that in order to assure continuity of supply, Diodes has qualified a replacement Wafer Fab source for the redistribution layer (RDL) process (Chipbond KF) located in Hsinchu, Taiwan.

RDL is an extra metal layer on the chip that makes the IO pads available in other areas of the chip.

This PCN will be implemented immediately due to the closure of (Chipbond LH) also located in Hsinchu, Taiwan.

Full electrical characterization and high reliability testing has been completed on a representative part number to ensure there is no change to device functionality or electrical specifications in the datasheet. Refer to the attached qualification / reliability report (embedded in this file).

**IMPACT**

Continuity of Supply. No change in product performance or datasheet specifications.

**PRODUCTS AFFECTED**

AP22800HB-7
