**TITLE**
Alternate Discrete Dice

**IMPACT**
None

**DESCRIPTION OF CHANGE**
This PCN is to notify customers of qualification for alternate dice in discrete devices from the current fab source. Alternate dice will improve the delivery time and will provide additional capacity for the products specified in the attachment. Full electrical characterization and high reliability testing have been completed on representative devices using the alternate dice to ensure no change to device functionality or data sheet electrical specifications before shipment. Samples of parts with the alternate dice are available upon request.

**PRODUCTS AFFECTED**
- PDU340-13
- PDU420-13
- PDU540-13
- PDU620-13
- PDU620CT-13
- DFLU1200-7
- DFLU1400-7
