*** Note:**
Pericom apologizes for any inconvenience this situation may cause our customers. It is recommended that customers should contact their Pericom sales representative as soon as possible to discuss how Pericom can support customer needs with the recommended Fit, Form and Function replacement part as indicated above.

To make customers have the updated information, we would like to inform that GA0400012 will be phased out because not only the current supplier's test equipment cannot test and guarantee the spec for 130°C but also no new qualified supplier can meet the requirement.
